

LIST OF EQUIPMENT FOR TEST

DISCRIPTION OF DEVICES	DISCRIPTION	QUANTITY
	High voltage test up to 100kv	
Set of laboratory High voltage (Second floor)(Up to 24 kv	AC High voltage test up to 280kv DC Impulse test up to 245kv Power frequency test Current Injection up to 2500 A	1SET
Current Injection	Voltage Injection up to 250v AC Voltage Injection up to 250v DC Measurement of Resistance	1SET
LCR meter	Measurement of Capacitance Measurement of Inductance	1SET
Earth tester	Land resister	2SET
	Magar test	
Multi tester	Current leakage test Dielectric test Insulation test Function test	1SET
LV tester up to 5 kv	Over current test	1SET
Trip unit test	Relay test (Only SIEMENS switchgear)	2SET
Torque meter	Measurement Torque	4SET

LIST OF EQUIPMENT FOR TEST

DISCRIPTION OF DEVICES	DISCRIPTION	QUANTITY
Vernier	Measurement Dimension	30 SET
Micrometer	Measurement Thickness	2 SET
Radius Gage	Measurement Radius	2SET
Gonio meter	Measurement Angle	4SET
Lox meter	Measurement light power	1SET
Thickness Gage	Measurement Thickness	3SET
PH Gage	Measurement PH	10 SET
Bending for painting	Color test	1SET
Direct Impact for painting	Color test	1SET
Glass for painting	Color test	1SET
Laboratory Kiln	Color cooking	1SET
Tender balance(two scale)	Color weight	1SET
Light meter	Measurement light power	1SET
